

VIETNAM HELPING TO
KEEP THE RHINO WILD

A Story of Hope the Rhino

In a far, far land in South Africa, where the sun
always rises and home of many animals

There lives a family of cheetahs,...

A big herd of elephants,...

A family of giraffes
with their long, long
neck,...

A pair of lions with their
baby cub,...

A big group of hippos who love sleeping and playing in the water,...

A herd of the zebras with their beautiful stripes,...

And there is also a happy family of rhinos.

Hope is a baby white rhino girl and she just turned 2 months old.

Hope's great, great, great-grandparents have been living on Earth for a long, long time, more than 15 millions years ago.

While her family lives in South Africa, her cousins live in other places in Africa and Asia...

Hope really loves her mom and always wants to be with her everywhere.

Hope's mom is a big rhino and has two horns on her nose. While Hope is still young, so her horn is still tiny.

Hope's horn is just like our fingernails and hair, and will grow bigger when she gets older.

Hope and her mom love eating grasses. For 1 day, they can eat more than 50kg of grasses.

Hope's mom is very big and weighs over 3500 kg, while Hope is very little.

She will need to eat more so one day she can be big and strong like her mom.

Rhinos are the second biggest mammals on land, while the biggest mammals on land is... ELEPHANTS!

Rhinos are big, but they can run really fast. They can run as fast as the cars.

Hope's best friends are Zoey the zebra, Elena the elephant, and Tommy the Oxpecker.

Hope loves to race with Zoey and Elena...

Zoey is the fastest, while Hope is the second and Elena is the third.

Tommy the oxpecker doesn't like to race. He loves to sit on Hope's back and gives her a scratch.

Hope loves her home and all the animals here. They all live in peace and happiness.

But Hope is always scared of humans...

Humans have always hunted rhinos and taken rhino mothers away from the babies.

Hope loves her mom so much, she is scared that one day humans will take her mom away from her.

But Hope doesn't hate humans...

She only hopes that one day, humans will not hunt rhinos and live with every animal in peace and happiness.

Until then, she just wishes to stay by her mom's side forever!
