HARMFUL EFFECTS

VIETNAM, RHINO NEED YOUR  
HELP. LET'S STOP THE FALSE BELIEFS  
ABOUT RHINO HORN, AND SAVE  
THE SPECIES.

**VIETNAM, BE MY HERO**

Rhinos are dangerously close to becoming extinct. Forever. It's NOT because rhinos are a danger to people. It's NOT because they have anything we need. It is only because of the horn on their heads. They are being killed because of the false belief that the horn is a form of medicine. Even though it has been proven that the horn has no medicinal properties at all, the poaching continues. Right now, rhino poachers are planning their next move. So we have to make ours to save the rhino, and we have to do it soon.
